**ADDITIONAL INFORMATION SUPPORTING NJD** (e.g., paragraph 1 site conditions; paragraphs 2-3 rationale used to determine NJD, including information reviewed to assess potential navigation or interstate commerce connections; and paragraph 4 site information on waters of the U.S. occurring onsite):

A permit application was submitted to the Corps to fill 0.051-acre of wetlands adjacent to the Amberg Substation. The wetland is isolated from any waters of the U.S.

A review of local topographic maps, the local soil survey, wetland inventory maps, and aerial photography failed to identify any surface water connection to a water of the U.S.
